## The mysteries fire dragon Found

Last week on Friday I found in Miss Wilsons class Oak class in Miss Wilsons cupboard I found a tiny Dragon. I found him because he was hiding in the nest behind the curtain.

I found the dragon in Liss Junior school I was shocked to find him. It opened its jaw and exposed venom fangs coming out. I saw that he had blood stained skin going all down him. The dragon has yellow spikes going down his back.

It is an amazing discovery because there are very little of them left in the world!!
