FIERCE SURPRISE FOR MY CLASS!

Last Thursday (8th October 2020) I saw a frightening, fierce baby dragon in my class (Oak class) I found it because we had two eggs in my class.

Miss Wilson was teaching me and my class, the subject was English. Then the purple, sparkly egg hatched and I was astonished and speechless.

Then I saw that everyone was looking at the dragon and they all looked very surprised to see the dragon.

This is the most exciting discovery because it never been discovered and nobody have ever seen such a beautiful, red dragon! When I saw it I thought I was dreaming.

Mrs Myers is currently looking after it and I don't know what chaos is going on. Now we have two eggs left and I am excited to meet the new dragons!
