FIREY SURPRISE for OAK

Last week on Thursday the 8th of October Oak class were screaming with delight because they had found a vicious blood stained dragon. It was in a nest in Miss Wilson's cupboard but there were also blue and purple eggs with gold spots on them in there.

Oak class were in the middle of an English lesson when Miss Wilson stopped them because a quick strike of red caught the corner of her eye.

"I saw a fire red dragon tumble out of the cupboard" muttered Miss Wilson.

Dragons aren't meant to be real so the fire red dragon that Oak found was incredible. The dragon also has scorching orange fire in his mouth and has razer sharp teeth so the children need to be careful.

Mrs Myers the head teacher is looking after the dragon. Lexi her dog is with the dragon but the dragon might eat Lexi or Lexi might eat the dragon.
