## A magnificent dragon has been born at Liss Juniors school.

A stunning baby dragon has been born at Liss Juniors school. The care taker found the egg on the top of the roof. He roared “what on earth is this.”

Fist Miss Wilson spotted a tiny red dragon in the nest and Miss Wilson took it out of the nest so Oak Class could see the dragon.

Miss Wilson stated “this is an incredible find, as dragons were extinct thousands of years ago”.

We know that this baby is going to grow to a big for this school.
