A magnificent dragon has been found at school

Last week a stunning baby dragon was found at Liss Junior School. The caretaker found the egg on top of the roof. He roared “what on earth is this?”.

First Miss Wilson spotted the dragon in the nest. She shouted “I was absolutely shocked”.

Miss Wilson stated “this is an amazing discovery, as dragons were extinct thousands of years ago!”.

The head teacher Mrs Myers whispered “Oak class you must not tell anyone about this dragon. I will keep it safe in my office”.

She informed the press “we know that this baby is going to grow into a gigantic dragon! So we need help finding his mum!”.
