## The Cupboard Creature

Last week on Thursday the 8<sup>th</sup> of October 2020. Oak class found a tiny, red, fiery surprise. The baby dragon was hidden in Miss Wilsons cupboard.

Mr Haycock saw three dragon eggs outside the school. So he took eggs into Oak class and said “ I found the eggs in the field”. The children in Oak class were very excited because they wanted to find out what was inside the eggs.

It was incredible because dragons don't rely exist. But I guess it is wrong.

The children in Oak think the dragon is going to grow as colossal as a Woolly Mammoth but of course Woolly Mammoths don't exist anymore either.
