

LISS POST

The cupboard creature

Last week on Thursday 8th October 2020, Oak class found a maroon golden lava coloured dragon in Miss Wilson's cupboard.

Oak class could peek through the tiny cracks that it made but it was still in its cosy egg.

Magnificently a few days ago last week the egg hatched! Oak class felt excited.

It is amazing because Year 3 had never seen a real dragon before and Oak class had never seen the evidence

of a broken egg shell from a dragon before. They stopped working and made a huge gasp of excitement.

When it is older it will grow bigger but we can just keep it for now.
