

LISS POST

A magnificent dragon born at school

A stunning baby dragon has been found at Liss Junior School. The caretaker found the egg on top of the roof. He roared “What on earth is that?”

First, Miss Wilson spotted a small, red dragon in the cupboard.

Miss Wilson stated “this is an incredible find as dragons were extinct thousands of years ago!!”

We know that this baby is going to grow too big for this school. He wants to live with his mum in the mountains. We need help finding her!
