

LISS POST

Oaks classroom creature

Last week Oak class had an amazing discovery they had found a red fire breathing dragon! This is an unexpected discovery that nobody could ever find.

In the middle of a fun English lesson Mrs Newman saw a red shine in cupboard the and the whole class got very excited because everybody wanted to hold him but Miss Wilson did not let them as he might bite.

This is an amazing discovery because all TWENTY FIVE yes TWENTY FIVE people in the class got mind blown! Dragons are not real claimed Oliver he was confused even this could be the greatest discovery of all time.

Mrs Myers is looking after the red fire breathing dragon and next the other egg will hatch! And the other dragon is granted to be dangerous.
